TSP143III

Always Leading - Always Innovating

PROMOPRNT™

TSP143III

Faster, Better, Easier!

The TSP143III is the faster, easier, and better POS printing solution.

Already a leading player in the mPOS market, the Star Micronics TSP143III is offered with WLAN, LAN, Bluetooth, or USB interface connectivity, for an easy-to-use and ready-to-go installation. The TSP143III offers a web configuration page for the WLAN and LAN TSP143III printers, a simpler way for all devices to connect to the WLAN printer for setup with AP mode, an easy Bluetooth pairing connection, and a "plug and play" USB Lightning connection. For the USB version, there is a USB serial number feature so the PC will detect the TSP143IIIU on its Windows platform using any USB port. The thermal receipt printer is an upgrade of the TSP100, printing at almost twice the speed with special Print Flat Technology, and is fully compatible with its previous version, requiring no additional integration or development.

With included internal power supply, power cables, complete mounting kits, and start-up paper roll, the TSP143III is the perfect printer for any mPOS bundle. Star has also added an additional USB type A connector for one convenient power source for your tablet or mobile device. The TSP143III offers a small form factor for any sized counter space and prints up to 250 millimeters per second. The high-speed thermal printer also includes a guillotine auto-cutter and "drop-in and print" paper loading for even the busiest of retail and hospitality environments.

Powerful futurePRNT Windows software allows users to enhance their receipts by adding graphics (logos and coupons), printing multiple copies, using the text processing function to replace printed information or trigger a coupon, and more. The TSP143III can also be used with PromoPRNT, which allows retailers to create custom printed promotions from templates, and the AllReceipts™ digital receipt app, which allows shoppers to manage receipts digitally and retailers to receive instant feedback on customer satisfaction.

Features:

- All-in-One Box with WLAN, LAN, USB, or Bluetooth Interface
- Available in Ultra White & Gray
- High-Speed Printing (250mm/s)
- Special Print Flat Technology & Guillotine Auto-Cutter
- Easy Connection Across All Interfaces
- "Drop-In and Print" Paper Loading
- Compatible with PromoPRNT and AllReceipts™
- USB Type A Connector to Power Tablet and Other Mobile Devices
